

# CAREER TRAINING PROGRAM

Our career training program provides for a variety of learning experiences. Specific program selection should be made consistent with the student's interests, aptitudes, and career plans. It is recommended that students interested in career training confer with their guidance counselors, before making a selection.

## **TRADE AND TECHNICAL PROGRAM**

### **NASSAU TECH. (B.O.C.E.S.)**

Nassau Tech. (B.O.C.E.S.) offers technical or vocational training in more than 50 occupations at any one of their 6 area centers.

Students selecting this program can earn 4 school credits per year. Each student spends 1/2 day (A.M. or P.M.) at a Nassau Tech Center. The remaining 1/2 day is devoted to study in elective or required subjects for graduation.

Transportation to and from the Nassau Tech Center is provided by the Great Neck School System.

Participation in the B.O.C.E.S. program does not preclude the opportunity for post-high school training or education. Many community colleges have designed their curriculum so that those desiring to learn more about their chosen field may do so upon completion of a Nassau Tech (B.O.C.E.S) program.

A partial list of Nassau Tech (B.O.C.E.S) courses appears on next page. For additional course listings and/or information see your guidance counselor.
